

LOCATION CORRELATION REPORT

Synthetic location-association record prepared for CINTRA evidence and relationship-analysis demonstration

Evidence ID	EVD-DEMO-003	Record Ref.	LOC-DEMO-001
Case ID	CINTRA-DEMO-001	FIR No.	FIR-DEMO-2026-001
Record Type	Location Record	Data Origin	Synthetic Demo Data

Observed Subjects

Person Reference	Name	Recorded Role
P-DEMO-001	Ravi Mehra	Person of Interest
P-DEMO-004	Arjun Malhotra	Financial Contact

Location Observations

Timestamp	Subject	Synthetic Area	Source
01 Sep 2026 18:21	Ravi Mehra	Central Market Zone, New Delhi	Demo location event
01 Sep 2026 18:34	Arjun Malhotra	Central Market Zone, New Delhi	Demo location event

Correlation Finding

The synthetic records place Ravi Mehra and Arjun Malhotra within the same general demonstration area approximately 13 minutes apart. For CINTRA testing, this supports a manually reviewed **SEEN AT SAME LOCATION** relationship between the two fictional subjects. A location correlation indicates only spatial-temporal proximity and does not establish direct contact or wrongdoing.

DEMONSTRATION NOTICE

All names, locations, timestamps, observations, and investigative associations in this document are fictional and created solely to test CINTRA. This is not a real surveillance, telecom, GPS, or police record.
